MATEUSZ DOMBKOWSKI

FRONT-END DEVELOPER

ABOUT

I'm programming for 2,5 years commercially. I transform my passion for coding into code that's readable, clear and easy to maintain. Working for company as big as Neonet S.A. taught me humility, scrupulousness and work at the highest standards where attention to team goals and details are the most important things. I'm constantly developing, improving my skills and I'm happy to take advice from colleagues who are more experienced than I am.

- Engagement
- Reliability
- Analytical thinking

EXPERIENCE

Neonet S.A.

Front-end Developer | 12.2024 - present
Junior Front-end Developer | 09.2022 - 11.2024

- As a Frontend Developer I was mainly tasked with creating features, fixing, and maintaining frontend functionality of our internal application, a dashboard which allowed to visualize data for departaments like Marketing or HR. Using technologies like:

  React, Typescript, Redux Toolkit, REST API, libraries like Axios, Chart.js, React Hook Form, React Router.

- Development, bug fixing, and optimization of our Magento plugin for Chrome using **JavaScript, CSS, SCSS.**

- Creating, modifying and optimizing Landing Pages' Front-end layer on Neonet.pl and Neo24.pl websites using **Javascript, HTML, CSS, Magento.**

TOOLS/TECHNOLOGIES

- React
- Next.js
